YOUTH FROZEN STIFF IN REFRIGERATOR CAR

PASADENA, Cal., May 13.—Word
reached here last night that Fred
Peck, son of William Peck of Mar-
cellus, N. Y., was yesterday taken
out of an ice car of oranges at
Canadian, Tex., with his hands and
feet so badly frozen that he will
die. Peck was visiting his aunt
in this city and on May 5 told
a young friend that he was going
to steal a ride home in a refrig-
erator car.

The car in which he was found
was sealed up here for its eastern
journey on the same day.

Developments Past Week in Sister Camp of Manhattan

The east side has been the object
of much attention this week. A
graduate of California men is tak-
ing over the leases on the St. Paul
and Otero groups and will operate
a merger of three leases under one
management.

The principal working shaft for
the present will be on Otero ground
for the reason that it includes the
lowest point on the vein. This
shaft is now 50 feet deep, but sink-
ing will be discontinued for a week
until the shaft is timbered and a
hoist installed. The vein at the
present depth occupies the full
width of the shaft and some oc-
currence of the sensational high-
grade is noted with nearly every
round of holes.

Mr. Maris has had many appli-
cations for leases during the week,
but as the preference has been for
lots on the ground of the new
leasing company no new allotments
have been made.

On Monday Howard Burr found
some rock of high value on a vein
of the Minneapolis group. It is of
a character hitherto unknown in
the district, inasmuch as not more
than one-fourth of the gold content
is indicated by the pan. There
has been some hint of this quality
in the very high grade stuff that
has turned up on the east side, but
the exact character of the base
ore has not yet been determined.
It is known that both arsenic and
tellurium enter into the ores of
the district and it safely may be
assumed that both these minerals
will play an important part in the
deeper workings of the mines.

Another Lease Strikes It Rich.

It never rains but it pours. The
territory of the Big Four company
is the scene of another remarkable
find. A leasing partnership consist-
ing of J. L. Lindsay, B. V. Tarash,
Paul Vukovich and Paul Mikato-
vich, who are workings blocks 7 and
8, are the fortunate ones. They
have been at work two or three
weeks on a vein that strikes at a
right angle to the vein that has
made such a reputation for the

Compare My 25 Per Cent Discount

On jewelry, watches and clocks
with others 33 1-3 per cent dis-
count and you will find my offer
to be much the better—for the
reason that my prices have AL-
WAYS been from 25 to 100 per
cent lower than the prices made
by my competitors. I sell goods
at "city" prices and my goods are
plainly marked. Heretofore you
have been compelled to pay "de-
sert" and "boom" prices in Tonopah.
For the past five years, as you
all know, the price of jewelry
has been much lower in Goldfield
than in Tonopah. I made those
prices and now I am here with the
same prices. Remember, I give
25 per cent discount on figures
that were already very low.

B. SHEMANSKI

lease.

The location of the shaft is only
about 60 feet from the Gold Wedge
line. At 26-foot depth the vein
rather suddenly opened out to the
full width of the shaft and at the
same time greatly increased in
value. A sample taken Thursday
across three feet width assayed over
\$100 per ton in gold. Although
no vein walls yet have been de-
veloped the gangue is principally
quartz.

Several mining men who have
seen the vein are much impressed
with its importance and the pre-
diction is made that it may rival
in importance the older lease. Sev-
eral attractive specimens showing
both wire and leaf gold have been
exhibited in town.

McNeil Mill to Resume.

S. W. Steffner and I. P. Car-
penter have secured a two months'
lease on the McNeil mill and have
a force of men busy making certain
repairs and changes at the plant
preparatory to resuming operations.
They expect to have the mill run-
ning by the first of next week.

In what is known as the old
Plamenaz dump on the Union No. 9
are about 2000 tons of ore of a
low milling grade. This ore has
been contracted for by Messrs. Steff-
ner and Carpenter, who expect to
secure an extraction of about \$10
per ton from the same.

White Caps Ore to Mill.

About sixty tons of ore were
shipped to Millers Monday by the
White Caps Leasing company for
treatment. The total amount to
be treated will be about 250 tons.
The ore is being taken to Tonopah
by the Wittenberg teams and from
Tonopah it goes by rail to Millers.
Several hundred tons of good mill-
ing ore—a part of it high grade
milling—are on the dumps and it
has all been taken out above the
100-foot level. The consignment go-
ing to Millers is expected to return
a value of about \$50 per ton in
gold.

Change at Dexter Con. Lease.

As the Post goes to press, word
is received that the War Eagle com-
pany, which owns the control in the
Dexter Consolidated Leasing
company, is negotiating for the in-
terests of James Shea and C. B.
Putman in the lease. In the event
the deal is consummated a change
of management will take place. It
is understood that a man who
has been connected with the Tonopah-
Liberty has been tendered the position
of mine superintendent.

Joker After Big Four Ledge.

The ledge encountered in the
Joker tunnel last week continues
to give up good values, and is be-
ing opened up.

Zeb Kendall, who is operating the
ledge, believes that by driving the
tunnel another 100 feet the rich
Big Four ledge will be tapped, and
if it proves all that is expected of
it, the Joker will quickly take its
place with its prominent neighbor
the Big Four.

MASON SMELTER

ORDERS BRICKS

The building of the smelter in
Mason valley is being rushed only
as money can rush things along.
Aside from the expensive high-pow-
er electric line that is being con-
structed from the Truckee river to
the smelter, a lot of other work
is being rushed along. A vast
amount of material is on hand and
construction is progressing rapidly.

A contract has been entered into
with a Reno firm to furnish the
smelter people with one million
bricks. The work of manufactur-
ing the brick will start immedi-
ately. The bricks must be delivered
not later than June 30th.

At fifty tons to the car the ship-
ment will make a solid train of
fifty cars and will stimulate ship-
ping beginning with the first car-
load, May 20th, until the last of
June.

WELLS FARGO ON THE GRILL.

Wells Fargo & Company has been
backing an investigation by the
California railroad commission. The
commission finally got onto the trail
and has made it so hot that the
company has withdrawn objections
through their lawyers, and the in-
vestigation will be held.

California, like Nevada, has been
held up by this corporation so many
years that it has grown used to
it. By the time Governor Johnson
and the new railroad commission
in California gets through with this
set of highwaymen they will be in
shape for a shake down by the
Nevada commission. Fargo has been
crying its head off every time a
robber went through the till or held
up a stage. In the meantime the
company has held the people up by
the heels and jingled the coin out
of their pockets. It has done no
good to kick, as the old California
commission was owned by the cor-
poration, and Nevada had none. The
day of a hundred per cent profit
has about passed and Wells Fargo
will be trimmed to meet the times.
